**FOR IMMEDIATE RELEASE:**

**Pasco Education Foundation Receives Outstanding Customer Service Award**

The Pasco Education Foundation has received the District School Board of Pasco County's quarterly "We Treasure Excellent Customer Service Award." The Foundation received the award because the staff exceeded the expectations of their customers and was "caught in the act" of delivering exceptional service.

The award is presented each quarter to a District Office department based upon nominations received by other departments or individuals from school sites.

"It is truly an honor to be recognized by the School Board for providing excellent customer service. Our office takes great pride in often going the extra step to make sure we have met the needs of the students and employees of the Pasco Count School Board," said Chip Wichmanowski, Executive Director.
