

Take Stock in Children Additional Sponsorship Opportunities

Take Stock in Children has increased the student and mentor growth by 91% since 2006, however state funding has been cut by 41%. Now more than ever, creative ideas and your financial help are needed to maintain this fine program that has provided college scholarships and mentors to 400 Pasco County students since the program's inception in 1997. Although "So You Think You've Got Talent" is the premier event, funding for other events is also needed.
