

WISE SUPPLIES IMPACT

To date, Wise Supplies has distributed over **\$500,000** in critical school supplies and classroom resources to teachers across 97 schools in Pasco County.

"Wise Supplies is a critical resource for both students & educators."

"We are a Title I school. Many of our families are struggling financially and the cost of school supplies has increased exponentially to the point where they just can't afford them. Additionally, due to the increase in rents and cost of living teachers are unable to afford to purchase additional supplies for their classrooms out of their own pockets. Wise Supplies filled in the gaps and we are ever so grateful."

"It has been a tremendous help for my students to have plenty of supplies provided by Wise Supplies. They are more organized, they are ready to work with the appropriate notebooks, pencils, binders, and more..."

"Wise Supplies allows me to bridge the gap in supplies and needs for my students, as well as myself. I was able to develop some new centers this quarter too with the ABC pop its which were fun!"

"Wise Supplies allowed me the opportunity to supplement my students shortfalls. I love that I can do that without stressing about the cost. I work at a Title I school and my students are very needy and very appreciative of anything they receive and so am I."
